Our enhanced service – video transcript

Speaker 1: By registering, you’ve got access to a lot of support to help you through the application process. So, you’ll be alerted when there’s events that are relevant to you going on in your area, you can access the school experience programme if that’s something you’re eligible for, and you may also be eligible for Premier Plus. If you are, you get the support of a dedicated adviser, throughout the process, to guide and support you and answer any questions you might have.

Speaker 2: When you’re thinking about going into teaching, you need as much of that support to get that base set up and get all the right information, all the right facts laid out on the table to help you make the right decisions and which routes to take.

Speaker 3: I have a Premier Plus mentor who is a very experienced teacher and spent some time helping me think through why I wanted to be a teacher, helping me write my personal statement. Just a hand to hold through the process, but you knew she knew what she was talking about.

Speaker 4: Whenever you come up with a question you’re not sure about you’ve got someone there who’s not just anybody, it’s someone who’s a recent ex-teacher, who’s been through the process themselves, who’s seen lots of other candidates go through the same process recently as well.

Speaker 2: Even if they weren’t sure about something, they can feedback so quickly - they say ‘I’ll go get on it, I’ll find out for you’. That 24/7 readiness, you know, you just give them a text or an email and they’ll go and try and help you out for it. That was really, really important I think.

Speaker 5: I thought it was really nice to have somebody that’s a teacher look over my application form and tell me ‘That’s good, that’s bad, that needs improving’. It’s just, for personal satisfaction, it made me feel a lot better.

Speaker 1: A lot of people we support have a lot on their plate and it is helpful to have somebody who’s been through it, who understands the process, who can just help you and keep you motivated and keep you on task.
